  - (vii) IEC Certificate of the manufacturer.
  - (viii) Proof of supply/ installation of 50% of the required quantity.
  - (ix) Major deviation from the technical specification of the items as per tender
  - (x) Price Bid/ quoted rate with signature and seal (Hard copy)

# **6. EARNEST MONEY DEPOSIT**

- 6.1. The amount of Earnest Money Deposit required is mentioned in the Section-II. The Earnest Money Deposit will be submitted in the shape of **Demand Draft only** in favour of the Dean & Principal, VSS Institute of Medical Sciences & Research, Sambalpur-768017 from any Nationalized / Scheduled Bank payable at Burla.
- 6.2. The EMD of the unsuccessful tenderers will be returned back without interest after placement of purchase order to the successful tenderer and EMD of successful tenderer will be returned after submission of performance security (ies).

( 1. 1. 2017

6.3. The EMD will be forfeited if the tenderer withdraws its tender / furnish forged documents which is found during bid evaluation OR doesn't sign the contract / doesn't furnish performance security / doesn't supply the items (in case of successful bidder) within the stipulated time period.

# 7. PERFORMANCE SECURITY & AGREEMENT

- 7.1. The performance Security should be submitted in shape of Bank Draft/Bank Guarantee from a Nationalised / Scheduled Bank in favour of the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla equal to the amount of 10% of the purchase order value of the item (excluding cost of CMC) within 21 days of issue of the purchase order.
- 7.2. The agreement (as per Annexure X) will be signed between the supplier and the purchaser and will be kept by the purchaser.
- 7.3. The performance Security Money will be returned back to the tenderer without interest after the expiry of the warranty period .
- 7.4. Security money will be forfeited if there is any violation of the tender terms and conditions.

## 8. TENDER CONDITIONS

- 8.1. The details of the medical equipments with specifications are mentioned in Segment 5. The firm must clearly mention their specification, special features, upgraded version (if any), detail technical catalogue of the offered model in their tender.
- 8.2. Tenders should be typewritten or computerized and every correction in the tender should invariably be attested with signature by the tenderer with date before submission, failing which the tender will be ineligible for further consideration.
- 8.3. Rates inclusive of excise duty / customs duty, packing, forwarding, insurance, transportation charges with 2 years onsite comprehensive warranty and exclusive of Sales Tax/VAT / GST & Entry Tax should be quoted for the medical equipments (Item wise) on door delivery basis. The turnkey job (cost of accessories if any required for Installation/Commissioning), 3 year CMC cost & Sales Tax/VAT/GST & Entry Tax should be mentioned in separate columns. The rates quoted should be in Indian Rupees only. Rates quoted in any other currency will not be accepted.
- 8.4. The purchaser shall be responsible only after delivery and due verification, installation and commissioning of the equipment.
- 8.5 The rate per unit shall not vary with the quantum of order placed for destination point.
- 8.6 If there is difference between figures & words, words will be taken into consideration.
- 8.7 In the event of the date being declared as a holiday by Govt. of Odisha, the due date of sale, submission of bids and opening of bids will be the following working day at the scheduled place & time.

( 1. 1. 2017

- 8.8 The price quoted by the tenderers shall not in any case, exceed the controlled price, if any, fixed by the Central / State Government / DGS&D and the Maximum Retail Price (MRP). The purchaser, at his discretion, will in such case, exercise the right of revising the price at any stage so as to confirm to the controlled price or MRP as the case may be.
- 8.9. The rate quoted and accepted will be binding on the tenderer for a period of **one year** from the date of approval of the rate contract and on no account, any increase in the price will be entertained till the completion of this tender period.
- 8.10 No tenderer shall be allowed at any time on any ground whatsoever to claim revision of or modification in the rate quoted by him. Clerical error / typographical error, etc. committed by the tenderers in the tender forms shall not be considered after opening of tenders. Conditions such as "SUBJECT TO AVAILABILITY" / "SUPPLIES WILL BE MADE AS AND WHEN SUPPLIES ARE RECEIVED" etc., will not be considered under any circumstance and the tenders of those who have given such conditions shall be treated as incomplete and for that reason, shall be rejected.
- 8.11 Approved rate with terms, conditions & the quoted price of the tender shall remain valid for a period of 12 months from the date of approval of the rate contract or till issue of next rate contract for these items whichever is earlier.
- 8.12 If the relevant documents / certificates which are required to be furnished along with the tender are written in language other than English, the tendering firm shall furnish English version of such documents / certificates duly attested by a Gazetted Officer / Notary with his seal and signature.
- 8.13 If any information or documents furnished by the tenderer with the tender papers are found to be misleading or incorrect at any stage the tender of the relevant items in the approved list shall be cancelled and steps will be taken to blacklist the said firm for three (3) years.
- 8.14 Rate should be quoted in Indian Currency, both in words and figures against each item as the payments will be made in Indian currencies only (Annexure-IX). The tenderer shall not quote the rate for any item other than the item specified in the list. (Segment 4).
- 8.15 Both Cover-A and Cover-B should have an **index and page number** of all the documents submitted inside that cover.
- 8.16 The Tax will be charged as per the guidelines given by the Finance Dept., Govt. of Odisha from time to time. Either C.S.T or V.A.T (as applicable) will be paid to the supplier. In case of Entry Tax, the supplier has to deposit the original receipt to claim it, if finished goods are brought from outside the State. The Sales Tax & entry tax components should be shown **separately** in the Price Schedule.
- 8.17 The requirement of items may increase or decrease depending on the situation.

## 9. PACKAGING

9.1 All the packaging should be New. The supplier shall provide such packaging of the goods as is required to prevent their damage or deterioration during transit to

their final destination. The packaging shall be sufficient to withstand without any limitation including rough handling during transit, exposure to extreme temperature, salt and precipitation during transit and upon storage.

## **10.TURNKEY**

10.1 The electrical power supply will be provided by the purchaser where the equipment will be installed but the wiring and electrical fittings inside the room and accessories if any required for installation & commissioning of the equipment from the power supply point to the point of actual installation will be provided by the supplier without any extra cost (apart from the cost mentioned under turnkey in the Price schedule which should include the cost of all such requirement). Networking of all instruments to a One Desktop Computer & Printer to be made by the Suppliers.

# 11. COMPREHENSIVE WARRANTY & CMC

(Undertaking as per Annexure - XI & XII)

- 11.1 The comprehensive warranty will remain valid for 2 years from the date of installation & commissioning of the equipment. The original copy of warranty documents will be submitted to the purchaser at the time of installation.
- 11.2 The warranty will cover all the parts of the machine or item and any replacement or repair required within the warranty period and will be provided by the supplier free of cost at the destination point (installation point). The supplier will take back the replaced parts / goods at the time of their replacement. No claim whatsoever shall be on the purchaser for the replaced parts / goods thereafter. No traveling allowances or transportation cost will be paid by the purchaser during the warranty period.
- 11.3 The Supplier shall warrant that the Goods supplied under this contract are new, unused, of the most recent or current models and they incorporate all recent improvements in design and materials. The Supplier shall further warrant that all Goods supplied under this contract shall have no defect arising from design, materials or workmanship or from any act or omission of the Supplier that may develop under normal use of the supplied Goods in the conditions prevailing in the place of final destination.
- 11.4 **CMC**: The tenderer shall also commit to provide offer for CMC for instruments for the next three (3) years after two (2) years of warranty.
- 11.5 The selected firm should have a service centre in Odisha.
- 11.6 All the warranty certificates must be handed over to the consignee after installation.

# **12. OPERATIONAL MANUAL**

- 12.1 The firm / supplier will provide hands on training to two doctors and two technicians of the Medical College & Hospital at his own cost for operating / handling the medical equipment(s) at the time of installation of equipment.
- 12.2 The supplier / firm will provide the operation / maintenance manuals of all equipments to the purchaser at the time of installation.

( 12. 2. 20)7

### 13. UPTIME GUARANTEE

13.1 The Supplier (s) shall provide guarantee 95% uptime during comprehensive warranty period, i.e., for 2 years from the date of installation & commissioning. Any uptime less than the specified period above will be compensated by the Supplier(s) by extending the warranty period. The consignee shall maintain a logbook in the format provided by the Supplier(s) which will indicate usage of the equipment every day and for calculation of up-time.

# 14. DOWNTIME PENALTY CLAUSE

- 14.1 During the Guarantee / warranty period, desired uptime of 95% of 365 days will be ensured (24 hour). If downtime exceeds 5%, penalty in the form of extended warranty, double the number of days for which the equipment goes out of service will be applied. The supplier must undertake to supply all spares for optimal upkeep of the equipment for **two years** after installation. If accessories / other attachment of the system are procured from the third party, then the supplier must produce cost of the accessory / other attachment and the CMC from the third party separately along with the main offer and the third party will have to sign the CMC with the purchaser if required.
  - In no case equipment should remain in non-working condition for more than 7 (seven) days from the date of complaint, beyond which a penalty will be applicable as per Rule.
- 14.2The principals or their agents are required to submit a certificate that they have satisfactory service arrangements and fully trained staff available to support the uptime guarantee.

# 15. SPARE PARTS

- 15.1 The spare price list of all spares and accessories (including minor) required for maintenance and repairs in future after guarantee / warrantee period should be attached / enclosed along with the sealed quotation.
- 15.2 The tenderers are required to furnish the list of spares along with their cost in the financial Bid separately which will not be taken for evaluation.
- 15.3 Local agents / distributors quoting on behalf of the manufacturer / importer must attach the authority letter in their favour.

## **16.LABELLING**

16.1 The equipment supplied must be properly labelled with Sl. No., Model Name, Make & year of Manufacture

# **17.SPARE PARTS**

- 17.1 The spare price list of all spares and accessories (including minor) required for maintenance and repairs in future after guarantee / warrantee period should be attached / enclosed along with the sealed quotation.
- 17.2 The tenderers are required to furnish the list of spares along with their cost in the financial Bid separately which will not be taken for evaluation.

( 1. 1. 10) X

17.3 Local agents / distributors quoting on behalf of the manufacturer / importer must attach the authority letter in their favour.

### **18.LABELLING**

18.1 The equipment supplied must be properly labelled with Sl. No., Model Name, Make & year of Manufacture

# 19.ACCEPTANCE OF TENDER AND SUPPLY CONDITIONS

- 19.1 The Purchaser reserves the right to reject the tenders or to accept the tenders for the supply of the item tendered without assigning any reason thereof.
- 19.2 The Purchaser will be at liberty to terminate the contract either wholly or in part without assigning any reasons thereof. The tenderers will not be entitled to any compensation whatsoever for such termination.
- 19.3 The **supply should be completed within 45 days** from the date of issue of purchase order unless otherwise specified. Grace period of up to 30 days extra may be allowed by the consignee under special circumstances only along with Liquidated Damage. If no supply is received even after the period from the date of issue of the purchase orders, such orders will stand cancelled automatically without further notice. Penalties shall also thereafter be applied to the tenderer as specified in clause no. 21.1 to 21.2. The approved firm shall also suffer forfeiture of the EMD and Performance Security Deposit.
- 19.4 The tender inviting authority or his authorised representative (s) has the right to inspect the factory of those company who have quoted for the tender, before accepting the rate quoted by them or before releasing any purchase order (s) or at any point of time during the validity period of tender and has also the right to reject the tender or terminate / cancel the orders issued or not to reorder based on the facts brought out during such inspections.

## **20. EVALUATION:**

- 20.1 The price bid of the tenders who qualify in the technical bid fulfilling the eligibility criteria and complying to the technical specification shall only be opened.
- 20.2 The tender inviting authority may ask for demonstration of the equipment by the bidders at the premises of the tender inviting authority as a part of the technical evaluation before opening of price bid in order to verify the compliance to technical specification.
- 20.3 The rates of *t*he item quoted by the tenderer who qualify technically will be evaluated after taking the following points into consideration: -
- a) Rate of the medical equipments will be taken after inclusion of the excise duty / customs duty, transportation, insurance, packing & forwarding & comprehensive warranty for two years, cost of turnkey (cost of accessories if any for installation/commissioning) & CMC for next three years for instruments.
- b) The cost of the medical equipments (excise duty / customs duty, transportation, insurance, packing & forwarding & comprehensive warranty for two years , but

(M. 1. 1017

- excluding VAT / GST & ET ), cost of turnkey (cost of accessories if any for Installation & Commissioning with all taxes for turnkeys) & cost of CMC for next three years for instruments after warranty will be added for evaluation.
- c) The circulars issued by the Finance Department, Govt. of Odisha from time to time regarding tax matters shall be taken into account for evaluation and shall be binding on the bidders. As per the Govt. of Odisha Finance Dept. Order No. 48317(230)/F dt.23.11.2010, in comparing the cost of an article, if purchased from within the State with the price of similar article if purchased from outside the State, the amount of Odisha Sales Tax (OST) now VAT / GST shall be deducted from the total cost since it accrues back as revenue to the State. If after such deduction, the cost of articles to be purchased within the State is not more than the cost of including Central Sales Tax, transport and other charges of similar articles from outside the State, it would be economical to purchase articles within the State.

## 21. LIQUIDATED DAMAGE:

- 21.1 The purchaser may allow extension for a maximum period of 30 days, after the stipulated date of supply (i.e. 45days) with a penalty of 0.5% which will be deducted from the purchase order value as "Liquidated Damage", for each week (7 days) of delay up to a maximum 2% on the value of the goods.
- 21.2 If the supplier fails to complete the supply within the extended period, i.e. 45 & 30 days after being allowed by the purchaser, no further purchase order will be placed to the firm for the said item including forfeiture of the Performance security and the concerned firm will be blacklisted for two (2) years from the date of issue of letter for the said item.

### 22. TERMS OF PAYMENT

- 22.1 No advance payments towards cost of medical equipments or turnkey job will be made to the tenderer.
- 22.2 90% of the cost of the equipment (excluding CMC Cost) + 100% turnkey job + 100% tax shall be paid to the supplier after 4 weeks of installation & on receipt of the stock entry certificate, installation and demonstration of the item from the consignee. The balance 10% of the payment of equipment will only be made after receipt of certificate on working status of the equipment from the consignee after 12 weeks of installation and commissioning of the equipment for which, the supplier has to raise two bills (A) one for 90% of the cost of the equipment + 100% turnkey job + 100% taxes (B) the other for balance 10% of the cost of the equipment.
- 22.3 Payments as mentioned above will only be made after keeping the **performance security deposit** from the supplier as per clause no. 7.1, if they have not deposited the same before. Payment will only be made after ensuring signing of the Agreement, undertaking and handing over of warranty papers of equipment and turnkey jobs by the supplier to the purchaser.

(M. 1. 1017

- 22.4No claims shall be made against the purchaser in respect of interest on earnest money deposit or performance security deposit or any delayed payment or any other deposit.
- 22.5 Payments in shape of Draft / Pay Order will preferably be despatched to the supplier by Registered post with A.D or e-payment / on-line transfer or may be handed over to the authorized person of the supplier.
- 22.6 The payment of CMC will be made only after completion of warranty period and signing of the CMC agreement.

## 23. PENALTIES

- 23.1 If the successful tenderer fails to deposit the required performance security within the time specified or withdraws his tender after acceptance of his tender owing to any other reasons or unable to undertake the contract, his contract will be cancelled and the earnest money deposit / performance security deposit shall stand forfeited by the purchaser.
- 23.2 Violating the tender terms and conditions & non supply / supply which is not as per technical specification will disqualify the firm to participate in the tender for a period of 2 (two) years from the date of issue of letter and his E.M.D & performance security deposit will be forfeited and no further purchase order will be placed to that firm for that item.
- 23.3 In the event of any dispute arising out of the tender, such disputes would be subject to the jurisdiction of the Civil Court of Sambalpur District or High Court of Odisha.

# **24.INSPECTION/TESTING**

24.1 The selected supplier shall have to arrange for demonstration of the equipment at the supply point. The purchaser or its nominated representative(s) shall inspect and test the equipments at the supply point to check their conformity to the specifications and other details incorporated in the contract.

# 25. CONDITIONS APPLICABLE TO LOCAL MSEs / SSIs OF ODISHA

The MSE / SSI Units of the State of Odisha will be given the following preferences in the tenders provided they produce the following documents as per MSME Development Policy-2009 and IRP - 2007:

- 25.1 Attested copy of valid manufacturing licence.
- 25.2 P.M.T Certificate from the Director of Industries, Odisha or General Manager District Industries Centre that it is a MSE / SSI Units of the State of Odisha, provided that MSE / SSI units has not been derecognised by the Govt. for that specified period.
- 25.3 Local Micro & Small Scale Enterprises (MSE) and Khadi & Village industrial units including handloom and handicrafts will enjoy a price preference of 10% vis-à-vis over local medium and large industries as well as industries outside the State. Local Micro & Small Scale Enterprises having ISO, ISI Certification for their

( 12 - 10 ) Y

product shall get an additional price preference of 3% as per provision of IPR-2007.

- 25.4 Local MSEs registered with respective DICs, Khadi, Village, Cottage and Handicraft Industries, OSIC, NSIC shall be exempted from payment of earnest money and shall pay 25% of the prescribed performance security deposit.
- 25.5 Clause number 1 to 22 is also applicable to the Small Scale Industry Units of the State of Odisha.

# **TECHNICAL SPECIFICATIONS**

Item Code	Name of Item	Technical Specifications
Code 1	Trinocular Stereo Microscope	1. Zoom Stereo Microscope Body with zoom ratio 8:1 with zoom setting more than 10 position zoom position (switchable Zoom clickstops 0.63x-0.8x-1x-1.25x-1.6x-2x-2.5x-3.2x-4x-4.5x-5x)  2. Variable magnification range between 6.5x to 100x & can be extended upto 250x  3. Widefield focusable eyepieces 10x with 23 mm field of view.Stand fitted with with broad base easy - to – reach controls for focusing, zoom changer and illumination  4. Photoport with 100% switch between right eyepath and camera, incl. interchangeable 60N camera adapter 0.5× with c-mount interface  5. Ergonomic Binocular phototube inclined at 35° with built-in Plan-apochromatic objective & eyepieces that cover large area of sample 35.4mm to 4.6 mm. Greenough/telescopic based optical system. Optical resolution should be 450 lp/mm or higher  6. Working distance should be 35-92mm or higher.  7. 350/450 mm column stand with broad base with working area should be 210x160 mm for along with light guide and 2 sliding reflectors for transmitted brightfield and darkfield application compatible with halogen lamp 15V 150 watt cold light source illumination and 560 mm gooseneck fibre optic dual light guide for incident light application & long lasting LED (color tempreture should be 5600K) for transmitted light application.  8. Optics should be anti-fungus treated & certified upto three years from the principal (certificate should be attached)  9. Photography system & software:  Resolution upto 5.0 Megapixels & pixel size should be: 2.2 µm x 2.2 µm or higher Frame Rate maximum 47 fps, Exposure time: 100µs to 2 s, Imaging software for image acquisition, capturing, live image preview, white balance adjustment, interactive measurement, angel, cantour along with a suitable Desktop PC  All specification should be mentioned in a valid printed catalogue of the manufactures as well as supplied item should be installed at ICAR/ICMR/Govt.institute.
2	CO2 Incubator	Guarantee/warranty – 5 years followed by 5 years  AMC/CMC  1. Stainless steel interior with inner gas door.  2. Stainless steel Exterior.

3. Sterilization: Automatic chamber sterilization. Sterilization cycle 4 hour at 160 deg or better. 4. Interior Volume: apex. 150-160ltr. 5. Digital Electronic CO2 control with auto zero. 6. Digital NDIR CO2 sensor. 7. Heap Filter for chamber packed in the sterile condition 8. Termp range: up to 50 deg C 9. Active Microprocessor controlled for humidification and dehumidification. 10. 		A
		Air circulation: Flange motor with blower
		Chamber illumination: Fluorescent light with door switch. Feet: Castor wheels
		Trays: SS wire mesh heavy duty 3 nos.
		Electrical: 230 V/ 15A/ 50 Hz.
		Safety Features:
		Temperature: High temp. safety cut off.
		Compressor: Electrical overload cut off relay for compressor
		Time delay for compressor switch ON Electrical circuit
		breaker
5	<b>Analytical Balance</b>	Fully Microprocessor based
		Maximum Capacity: 200-220 gm.
		Readability : 0.1 mg or less
		Repeatability :0.1 mg or less Linearity : ~0.2 mg
		Setting time: 2sec.appx
		Fully – Auto-calibrated with internal weights
		Power Supply: AC 230V/50Hz
		Protective Housing Cover
6	Hybridization	Microprocessor controlled temperature regulator
	Oven	Proportional plus integral controlling (PI). Rapid heat
	0 / 022	up.
		• Digital temperature setting and display in steps of 0.1°C.
		Fast and exact setting and exact reproducibility of temp.
		Soft touch key with characteristics symbols.
		Over-temp. Cut-out to protect the test substances.
		Electronic monitoring
		To be supplied with Hybridization Tubes of approx. 50
		mm, length 270 mm, 8 or more spring clips to hold
		hybridization tubes and 2 clip wheels.
		Interior Dimension: 400 x 330 x 400 (w x d x h) mm
		appx. Exterior Dimension: 580 x 630 x 670 (w x d x h) mm
		appx.
		Temperature range: ≤8°C above ambient to 99.9°C
		Temperature constancy ±0.5°C or better
		Temp. regulation: Electrical Microprocessor controlled
		Over temp. Cut-out: Set point dependant, Optical alarm
		if, set point is exceeded by 4 degree.
		ROTATION OF RACKS: 12 Per minute
		Interior Illumination: 2 lamps 15 watt each or better
		Power Supply: 230 volt
_	Floatronhonesis	1 KVA UPS with 30 minutes power back-up  Electrophoresis Systems
7	Electrophoresis	Mini Sub System
	Systems with Midi	For running 7 x 10 cm agarose gel
	Sub System With	Gel running tray and buffer chamber
	Power Pack - Mini	Gel casting tray and UV compatible gel running tray
	format Vertical	Gel Tray size: 7 x 10 cm8 and 10 wells combs
	Electrophoresis (2	Midi Sub System
	Gel)	For running 15 x15 cm agarose gel
		Gel running tray and buffer chamber
		Gel casting tray and UV compatible gel running tray Gel Tray: 7 x 10 cm10 and 15 wells combs
		Power Pack
		Constant voltage and constant current output
		The capability to pause and resume the run

		Tvv.1 40.000 1.00 1.00 1.00
		Voltage: 10-300 volt, Current: 4-400 mA or better
		Timer: 1 min to 99 hr or better Output terminal: 4 set in
		parallel, LCD display
		Mini format Vertical Electrophoresis(2 Gel)
		Due electrophoresis system for 10 x 7 cm gels
		Total buffer volume for 2 gels: 300-500 ml
		To be supplied with 1 mm and 1.5 mm spacers and combs 10 and 15 well combs
		5 sets of glass plates and notched plates
		Dual gel casting stands, sample loading guide, electrode
		Assembly, concealed to avoid electric shock
8	Gel Dryer	Vacuum gel-dryer system with thermo stable lid and
0	00121,01	accessories, Uniform heating platform to the upper limit 90-
		95 C or better, Dryer with suction pump and collector vessel
		Suction control facility with suction pump, Accessories
		including Tubing and control knobs, should be included
9	Spectrophotometer	Microprocessor controlled UV-VIS
		spectrophotometer must be mounting of a large size
		backlight color LCD display of atleast 26.4cm with
		standard validation and self-diagnostic function.
		➤ Incorporation of Seya-Namioka monochromator
		using stigmatic concave diffraction grating for elimination of the coma as well as aberration,
		grooving should be supported by the ruling engine
		preferably
		<ul> <li>Spectral bandpass preferably 1.5nm should be</li> </ul>
		satisfying European Pharmacopeia (Sample:0.02%
		solution of toluene in n-hexane)
		<u>Features:</u>
		Optical system : Double Beam with dual detector
		(split beam or ratio beam will not be considered)
		Grating: stigmatic concave diffraction grating  (hologram, grating will not be considered)
		(hologram grating will not be considered)
		Blazed wavelength of 250 nm should be used for optimizing the grating afficiency.
		<ul><li>optimizing the grating efficiency.</li><li>Wavelength range: 190 to 1100 nm</li></ul>
		<ul> <li>Spectral band pass: 1.5 nm( should be satisfied by European Pharmacopeia)</li> </ul>
		Noise level: ± 0.00015Abs or better
		Baseline flatness: ± 0.0006 Abs (within 200 to 950)
		nm)
		Baseline stability 0.0003 Abs/h
		Wavelength setting repeatability: +/-0.1 nm
		Photometric accuracy and repeatability should be
		certified according to NIST SRM 930
		• Wavelength scan speed: 10, 100, 200, 400, 800,
		1200,2400, 3600 nm/min preferably.
		Light source: Deuterium Lamp, Tungsten Iodide
		Lamp (An energy change in the light source can
		be compensated to ensure stable measurement for
		a long time)
		Light source changeover: Automatic switchover
		interlocked with wavelength.
	•	Display (40 v 400 large I CD healthalt display of
		Display :640 x 480 large LCD backlight display of 26.4cm

	<u> </u>	
		<ul><li>Centronics interface and RS-232C interface</li><li>GLP/GMP Complied option.</li></ul>
		Measured data can be saved by processing a
		commercial spreadsheet program
		Software function/application includes:
		Calculation of correlation coefficient
		Concentration unit input     Vinetic essey
		<ul><li>Kinetic assay</li><li>Spectrum and working curve printout</li></ul>
		Spectrum and working curve printout     Spectrum display
		Peak/valley detection/Tracing/Scale
		expansion/contraction/Smoothing
		• Differentiation
		Area calculation
		Fundamental arithmetic calculations between spectra
		Validation function
		Automatic wavelength calibration
		Lamp ignition time etc.
		System complete with Software & Suitable Computer.
		All specification should be mentioned in printed catalogue of the manufactures.
10	Ice Flaking	Self cleaning system: cleans its entire water distribution
	machine	system in 24 minutes
		Easy access with sliding type door
		Machine gets automatically cut-off when the collecting bin is
		full of ice flakes  Over load protection of motor and refrigeration system
		Capacity: 90-100 Kg, per 24 hours or better
		Self contained Bin capacity: approx. 25 kg or more
		Low water & Energy Consumption: 10 kwh per 100 kg.
		Water Consumption: 5 ltrs. Per hour
		Dimension: 25"x20"x40" appx.
	TIL C	Input Voltage: 230 V/50 Hz/ single ph.
11	Ultra Sonicator	130-500 watt Ultrasonic processor: Able to process samples with volumes of 150 μl-150
		ml(approx.)
		Independent on/off pulser, which controls, On/off cycles
		from 1-59 sec.
		The microprocessor based Timer controls processes. Timer
		Monitors both elapsed time and duration of processing.
		Tactile keypad, menu driven display, simple function keys
		combines for a user friendly systems.  All programmed Control parameters are displayed on the
		easy to read screen. Temp. Controller with memory.
		Converter, tool kit, foot switch connection, 6 mm Probe with
		tip and stand, clamp, sound enclosure box.
12	Refrigerated	Double wall construction
	Shaker Incubator	Inner made of stainless steel
		Outer made of mild steel with powder coated  Microprocessor based temp, controller with digital display
		Microprocessor based temp. controller with digital display Shaking platform with shelve for incubation purposes.
		Platform with interchangeable clamps
		Microprocessor based temp. & speed control with digital
l .	1	I The state of the

	T	D: 1
		Display.
		Timer facility
		Silicon packing magnet door
		Temp. safety glass door
		Speed Range: 25-300 rpm, ±0.1% or better
		Temp. Range: 5°C to 60°C, ±0.1°C., digital display or better
		Timer: 48 hours or more
		Compressor: 1/8 hp or better
		Shaking tray: either 9 x250 ml. clamps Or 16 x 100 ml.
		clamps for holding flasks or better
13	Inverted	1) Inverted microscope with 6V/30-35 watt halogen
	Microscope	illumination as well as long lasting LED lamp
	•	attachment for observation and photography under
		bright field & phase contrast. Microscope should have
		binocular phototube 45°/20 to attach the camera and it
		should made off from single moulded metallic specially
		for its binocular tube & lower stand part to ensuring its
		longevity & robustness. Provision for to upgrade LED
		fluorescence for 470 nm module only
		2) High quality Infinity Corrected System Objectives 4x,
		10x Ph1, 20xPh1 and 40x Ph1 and wide-field paired
		eyepiece 10x /20 mm FOV with focusable & dioptre
		adjustable swivelling siedentopf tubes for comforting
		viewing angle.
		3) Inter Pupillary Distance adjustment range 48-75mm.
		Intensity settings to be easily displayed on both sides of
		the stand by live LEDs as used as intensity indicator
		which used to to save the lamp life of the system.
		4) Large Specimen stage 200 mm x 239 mm to
		accommodate different samples, large tissue culture
		bottles, petri dishes, microtiter plates and culture flasks.
		Stage enlargment accessory available. XY movement
		guide for stage and holders for petridishes, 96 well
		plates should be available.
		5) Should be completed with filter for even homogeneous
		illumination & Interference green filter for phase
		contrast sample. Long working Condenser 0.4 of
		working distance 555 mm with universal phase slider
		for phase objectives & built-in aperture diaphragm for
		bright field and phase contrast.
		6) There should be automatic stand-by for illumination/
		on/off switch facility of light illumination ideal for 10-
		15 min. to increase the life time of the illumination
		7) Resolution upto 5.0 Megapixels & pixel size should be:
		2.2 µm x 2.2 µm or higher, frame Rate maximum 20
		fps & 10 micron to 2s & complete with c-mount
		adapter, Camera should have provision for integrated
		slot of capturing images from the microscope
		also.Imaging software for image capturing, live image
		preview, white balance adjustment, interactive
		measurement, angel, cantour, acquisition &
		annotations.Complete with a desktop computer/laptop
		to ran the above quoted camera & imaging software
		All specification should be mentioned in printed catalogue of
		the manufactures.

# 14 ELISA Washer and Reader with Microplate Manager Software

### **WASHER**

- 1. Microplate Types 96and 384well,Low profile and standard height, Solid and filter bottom
- 2. Onboard Software- Create, edit or run multiple protocols Software (pc control), LHC2 pc software, LHC2 Secure for 21 CFR Part 11 compliance (option), SiLA Compliant driver (option)
- 3. Separation- Bio-magnetic separation, vacuum filtration (optional)
- 4. Shaking- Programmable up to 60 minutes ,Slow, medium, fast or variable
- 5. Soaking -Programmable up to 60 minutes
- 6. Ultrasonic Advantage<sup>TM</sup> (option), Verify<sup>TM</sup> clog detection (option)
- 7. Automation Bio-Stack and 3rd party automation compatible ,Bio-Spa 8 Automated Incubator compatible

### Washing

- 1. Manifold Types- 96well washing: 96tube manifold straight dispense tubes 96and 384well washing: 96tube Dual Action manifold 20° angled dispense tubes 384well washing (fast): 192tube Dual Action manifold 7° angled dispense tubes
- 2. Volume Range- 25 to 3,000 μL/well, in 1 μL increments
- 3. Wash Cycles- 1-250
- 4. Buffer/reagent selection- Auto switching (internal) for up to 4 buffers (option)
- 5. Supply Bottle- 4 L or 10 L (optional)
- 6. Dispense Precision- <3% CV: 300 μL/well (96well washing), <4% CV: 80 μL/well (384well washing)
- 7. Residual Volume  $<2 \mu L/well$  (96& 384well plates), 96tube manifold for 96 wells; 192tube for 384 wells
- 8. Wash Speed- 96wells, 300  $\mu$ L/well, 3 cycles; <30 seconds 384wells, 100  $\mu$ L/well, 3 cycles: <80 seconds 384wells, 400  $\mu$ L/well, 1 cycle: <20 seconds
- 9. Flow Rates High flow to low flow, Optimized rates for cell assays
- 10. Sterilization- Chemical
- **11.** Vacuum Filtration- Selectable: Approximate final at 30 seconds: Lowest: 38 mmHg, Low: 113 mmHg, Medium: 200 mmHg, High: 390 mmHg, Highest: 506 mmHg

## **Physical Characteristics**

- 1. Power- 100- 240 Volts AC. 50/60 Hz
- 2. Dimensions -14" W x 17" D x 10" H, (35.6 x 43.2 x 25.4 cm)
- **3.** Weight- With internal buffer switching 36 lbs (16.5 kg) Without 30 lbs (13.5 kg)
- System should be both ISO & CE (European CE) certified to ensure quality. Certificate copies should be enclosed in technical bid.
- ➤ Guarantee/warranty 5 years followed by 5 years AMC/CMC

### READER

- 1. Detection modes- Absorbance
- 2. Read methods- Endpoint, kinetic, spectral scanning, well area scanning
- 3. Microplate types -6 to 384well plates
- 4. Other lab ware supported- like Take 3 Micro Volume

- **Plates**
- 5. Temperature control- 4Zone <sup>TM</sup> incubation to 65 °C with Condensation Control + 0.2 °C at 37 °C
- 6. Shaking-Linear, orbital, double orbital
- 7. Software -Gen5<sup>TM</sup> Data Analysis Software ,Gen5 Secure for 21 CFR Part 11 compliance (option)
- 8. Automation- Bio-Stack and 3rd party automation compatible, Bio-Spa 8 Automated Incubator compatible

### Absorbance

- 1. Light source- Xenon flash
- 2. Detector-photodiode
- 3. Wavelength selection- monochromator
- 4. Wavelength range- 200 -999 nm, selectable in 1 nm increments
- 5. Monochromator bandwidth- 2.9 nm
- 6. Dynamic range- 0- 4.0 OD
- 7. Resolution -0.0001 OD
- 8. Path length correction feature should be available
- 9. Monochromator wavelength accuracy + 2 nm
- 10. Monochromator wavelength repeatability + 0.2 nm
- 11. OD accuracy- 0 to 2.0 OD + 1% + 0.010, 2.0 to 2.5 OD + 3% + 0.010,
- 12. OD linearity -0 to 2.0 OD + 1% + 0.010, 2.0 to 2.5 OD + 3% + 0.010
- 13. OD repeatability- 0 to 2.0 OD + 1% + 0.005, 2.0 to 2.5 OD + 3% + 0.005
- 14. Stray light- 0.03% at 230 nm
- 15. Reading speed (kinetic)- 96 wells sweep read: 8 seconds, 384 wells sweep read: 14 seconds

### **Physical Characteristics:**

- 1. Power- 100 -240 Volts AC. 50/60 Hz
- 2. Dimensions -With touchscreen: 15.5" D x 12.5" W x 13" H (39.3 x 32 x 33 cm) , Without touchscreen: 15.5" D x 12.5" W x 8" H (39.3 x 32 x 20.3 cm)
- 3. Weight- With touchscreen: 25 lbs (11.3 kg), Without touchscreen: 20 lbs (9.1 kg)

### **Software specification:**

- 1. High-Throughput Analysis and Reporting
- 2. Running of 12 separate assays on the same plate
- 3. Optional automatic printing upon completion of measurement
- 4. Multiple-plate processing with automated data export
- 5. Custom reporting function that provides one-button screening for predefined assays, such as for TSE Comprehensive Curve-Fit Analyses
- 6. Linear, quadratic, cubic, Log-Log, Zero-Intercept Linear, Semi-Log, Logit Log, Point to Point or logistic (4-parameter, 5-parameter) fit types
- 7. Linear or logarithmic automatic axis scaling
- 8. External standard curves for multiple plates
- 9. Curve-fit graph overlay for comparison
- 10. Performance verification parameters include: Accuracy, Precision, Linearity
- 11. Spectral blocking
- 12. Complex Kinetic Analyses
- 13. Choice of number of calculation points for V max
- 14. Simple velocity calculation

		15. Negative or positive slope calculation
		16. Absorbance limit selection
		17. Kinetic correlation coefficient display and calculation
		for fit (r value)
		18. Real-time data acquisition display and ability to zoom
		in on a well
		19. Automatic scaling and real-time monitoring
15	Water Purification	1. Two stage water purification for system.
	System	2. Should have Electo Deionisation with automatic
		deionization
		3. Constant quality & continuous performance
		<ul><li>4. Pump with low noise EDI Technology</li><li>5. Provision to prevent back flow on Reverse Osmosis</li></ul>
		6. Recirculation Loop
		7. Automatic rinse and flush with automatic Sanitisation
		8. Provision of conductivity and resistivity meters,
		9. Measurement of inlet pressure, pressure on RO
		cartridge, water level in tank, EDI Module,
		flush/rinsing /standby /operate mode with auto test of
		all measurements
		10. Alarm at low pressure, quality below set point,
		exchange pack
		11. Wall mounting / table top mounting facility
		12. Data port connection-Ethernet (RJ45 )/ RS232 Connection (GLP printout function) or Q-POD
		parallel port 25 pin D-Sub for Q-POD dispenser.
		13. Provision for softener included (if required)
		14. Pre-treatment with activated carbon with 3 micron pre-
		filter and anti scaling compound
		15. Provision for 50 lt Tank with stop cock or tap
		16. Outlet resistivity of 18.2 MΩ.cm@25 °C
		17. TOC without UV: < 10 ppb, TOC with UV: < 5 ppb
		18. Less than 2 Particulates/mm with size > 0.22 μm
		19. Less than 2 cfu/mL microorganisms
		20. Very low level of Endotoxin(<0.001EU/ml)
		21. Very low level RNase (< 1pg/mL), DNAse (<
		5pg/mL) 22. Flow rate: at least 1 L/min
		23. Instrument supported by Software, Memory of actions
		and quality kept in memory for 1 year
		24. Option of Validation services
		25. System should be both ISO & CE ( European CE)
		certified to ensure quality .Certificate copies should be
		enclosed in technical bid.
		26. Guarantee/warranty –5 years followed by 5 years
		AMC/CMC
16	Hot Air Oven	Double walled construction
		Interior stainless steel of 304 grade
		Exterior stainless steel zinc plated
		Digital display of all parameters Temp. range: 10°C above ambient to 300°C or more,
		Accuracy: ±0.25°C at 150°C better
		PID Microprocessor control for exact setting and
		maintenance of set point temp. Integrated auto-diagnostic
		system with visual fault indication
		Triple Over temp. Protection
		Fan speed controller adjustable in 10% steps. Programme
		timer with real time clock.
L	1	

		Timer: 1-999 minutes
		Settings with test time and date  Manually adjustable air flep for freeh air intake
		Manually adjustable air flap for fresh air intake
		Air circulating fan
		Support ribs for grids Stainless steel grids symplical 2 mas
		Stainless steel grids supplied: 2 nos.
		Capacity: approx. 110 ltrs. Approx. Dimensions: internal:
		560 x 480 x 400 mm (W X HX D), External: 700 x 750 x 550
	3.50	mm (W x H x D) – Approx.
<b>17</b>	Microprocessor	Double wall has single chamber of steam and water
	Controlled	Working Chamber is made of stainless steel LM-304 Grade
	Autoclave	of 2 mm or better
		Thickness: Outer wall made of stainless steel of 1 mm thick
		or better
		Lid, flange and bottom sheet made of Stainless Steel. All
		joints are to be argon welded.
		Joint less silicon gasket. Heavy duty industrial flange heater
		or better
		Pressure range: 15 -22 PSI or better, Factory set at 15 PSI
		Lid fitting pressure gauge: 0-30 PSI or better
		Safety spring loaded pressure gauge, steam release Valve
		Hydraulically tested at 60 PSI
		Temp. control: Microprocessor based digital display
		Temp. range: 120 -125°C
		Built-in digital timer
		Calibration certificate
		Temp. automatically controlled by digital controller, which
		controls pressure and temp. with temp. indication
		Basket made of thick S.S. rod with wire mesh
		Size: 50/90 Ltrs. Apprx.
18	Refrigerated Micro	Rotor: 24 x 1.5/2.0 ml. with Click Seal bio-containment lid,
	Centrifuge	230 V, 50/60 HZ.
		Max RCF: 17000 x g, Max speed: 13,000 rpm or better
		,
19	pH Meter	
		1 — —
		Mv : 0.1 or better
		-
		ACCURACY:
		_
		•
		Temp. compensation: Automatic
		Calibration : A least up to 3 point
		Display : LCD single parameter plus temp.
		To be supplied with electrode, 4,7,10 buffer solutions along with cleaning & Storage solution
19	pH Meter	Ph : $\pm + 0.01$ or less  Mv : $\pm + 0.2$ or less  Temp : $0.1^{\circ}$ C or less  Temp. compensation: Automatic  Calibration : A least up to 3 point

20	Vertical Autoclave	Double wall design with single chamber for steam and water.		
		Inner chamber to be of at least 2 mm thickness and made of		
		stainless steel; Outer cover to be made of stainless steel . Lid		
		and flange are to be made of thick stainless steel.		
		Capacity of chamber 20-25 ltr. Approx.		
		Pressure up to 22 psi set 15 psi. Complete with pressure gauge, safety valve, steam release valve, extra safety valve.		
21	Hot Air Oven	Inner chamber: Stainless Steel, Outer wall: mild steel with		
21	Hot All Oven	powder coating		
		Gap between the walls to be filled with glass wool to avoid		
		heat loses.		
		Heating elements to be made of high grade chrome plated		
		chrome wire		
		Digital temperature indicator cum controller to Control the		
		temperature.  Air circulation for uniform temperature		
		Air circulation fan for uniform temperature Temperature range :≤50° C to ≥250° C		
		Accuracy : $+ +2^{0}$ C or less		
		Capacity in LTR $\frac{\pm \pm 2}{90 - 120}$ coppers.		
		Rating W : 2 KW or more		
22	Water Bath	Doubled walled, made of stainless steel and digital control of		
		Temperature  Controller Lid to be symplical with 6 or more heles % 7.0		
		Controller. Lid to be supplied with 6 or more holes & ~ 7.0 cms concentric rings.		
		Operates at 230v		
		Temp. range : $\sim 5^{\circ}$ C above ambient to $\sim 99.5^{\circ}$ C		
		Size in cms: 35x25x10appx.		
		Rating W: ~ 1 KW		
23	Magnetic Stirrer	Digital temperature setting		
	with Hot plate	simultaneous digital display of target and actual     tamparatures via LCD display		
		temperatures via LCD display		
		• display of actual temperature value in medium with 0,10 C resolution Heat output (W) :1		
		Heat output (W) :1 Heat output (W) :~1500		
		Stirring capacity: ~1. 5L or better		
		Plate dimensions (mm) :260x260 appx.		
		Plate material : Teflon coated		
		Power input/output (W) :~2 KW		
		Speed range : 100-1500 rpm or better		
		Temperature range (°C) : 50-200 or better Weight (kg) :6appx.		
		WxDxH (mm) : 300x4000x100 appx.		
24	Vortex Mixture	Vortex mixer for low volume of samples stirring.		
	3.322 3	Speed : ≤100 to ≥3200rpm		
		Operation: Touch/Continuous		
		Working condition: $\leq 4$ Ambient to $\geq 60^{\circ}$ C.		
		Body :MS with powder Coated/ chemical resistant.		
25	Tissue	Input Voltage : 230V, 50Hz, A.C. Supply With digital speed indicator		
25	Homogenizer	SHAFT holding up to 10MM DIA, fitted with girding pestle,		
	Homogemzer	~50ml glass homogenizing cup with rod as standard. Speed:		
		<ul><li>~30fil glass nomogenizing cup with rod as standard. Speed:</li><li>≤300 to ≥8000rpm. Max Volume: Up to 100ML.</li></ul>

TENDER NOTICE NO: 3461/VIM	SAR/2017/Dt. 21/06/	2017	Page 45 of 55

The price / cost of the item also include the followings in addition to above.

- 1. Insurance
- 2. Freight
- 3. Transportation
- 4. Customs duty / Excise duty
- 5. Charges for documents, instructions manual, tools
- 6. F.O.R. at the destinations mentioned in the consignee list
- 7. Training to doctors & technicians.
- 8. Maintenance of the system includes all accessories supplied and their spare parts required during comprehensive warranty period of two year at free of cost from the date of successful installation and satisfactory functioning of the system at the site.
- 9. Installation and commissioning of the system by the Supplier's engineer at site.
- 10. Any other charges including loading & unloading, packing & forwarding etc. will be paid by the Supplier(s) till the completion of the installation and turnkey job if any.
  - CMC cost for next 3 (three) years after the warranty for instruments period shall be paid after completion of the warranty period (on a six monthly basis).

#### **TERMS AND CONDITIONS**

#### **PRICE**:

Only the price quoted by the Supplier(s) in his / their financial proposal will be the price for payment and no other price escalation will be allowed at any circumstances.

#### **SUPPLY**

The supply should be completed within 45 days from the date of issue of purchase order unless otherwise specified. If no supply is received even after 45 days or 75 days with liquidated damage from the date of issue of the purchase orders , such orders will stand cancelled automatically without further notice. Penalties shall also thereafter be applied to the tenderer as specified under Penalty. The approved firm shall also suffer forfeiture of the EMD and Performance Security Deposit.

#### LIQUIDATED DAMAGE

The Dean & Principal, VSS Medical College, Burla may allow extension for a maximum period of 30days, after the stipulated date of supply (i.e. 45 days) with a penalty of 0.5% which will be deducted from the purchase order value as "Liquidated Damage", for each week (7 days) of delay upto a maximum 2% on the value of the goods.

If the supplier fails to complete the supply within the extended period, i.e. 45 days after being allowed by the purchaser, no further purchase order will be placed to the firm for the said item including forfeiture of the Performance security and the concerned firm will be blacklisted for two (2) years from the date of issue of letter for the said item.

#### **TERMS FOR PAYMENT**

**A.** The payment(s) shall be made by purchaser in Indian currencies. No advance payments towards cost of Instruments and Equipments etc. will be made to the tenderer. No payment will be made to the supplier if he has not deposited the unconditional performance security in shape of Bank draft/bank guarantee amounting to 10% of the purchase order value which will be deposited with the O/o of the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla.

90% of the cost of the equipment (excluding CMC)+100% turnkey +100% tax shall be released to the supplier on receipt of stock entry certificate and installation certificate (that it is working) from the consignee after 4 weeks. The remaining ten percent (10%) will be released after satisfactory working certificate received from the consignee after 12 weeks of installation subject to submission of performance security (10% of P.O. Value). For this purpose the supplier will submit two bills, one 90% of the cost of the equipment+100% turnkey +100% tax and the other for the remaining ten percent (10%) of the cost of the equipment.

- **B.** Before release of payment the supplier has to submit the signed agreement, warranty documents of equipment and turnkey job to the consignee. The undertaking as per Annexure XI & XII will also be submitted to the consignee with photocopies to the purchaser.
- **C.** The payment of CMC will be made on six monthly basis after expiry of the warranty period and signing of the CMC agreement.

#### TURNKEY JOB

The external power supply will be provided by the purchaser but the internal wiring and electrical fittings inside the room for installation & commissioning of the equipment and accessories will be provided by the supplier without any extra cost (This cost is to be included in the cost of turnkey).

#### **UP-TIME BALANCE**

The Supplier (s) shall provide guarantee 95% uptime i.e. 41610 (95% of 43800 Hours) during comprehensive warranty period. The up time guarantee will be 95% as calculated here under i.e. 8322 hours per annum.

1 year – 365 days (24 working hours per day)

Total working time per annum -365 days x 24 hrs =8760 hrs.

Up time guarantee - 0.95 x 8760 hrs. = 8322 hrs. per annum.

For 2 years warranty =  $8322 \times 2 = 16644$ Hours

Any uptime less that specified above will be compensated by the Supplier(s). The consignee shall maintain a log-book in the format provided by the Supplier(s) which will indicate usage of the equipment every day and for calculation of up-time.

#### **DOWNTIME PENALTY CLAUSE**

During the Guarantee / warranty period, desired uptime will be 95% of 365 days (24 hour) if downtime exceeds 5%, penalty in the form of extended warranty, double the number of days for which the equipment goes out of service will be applied. The vendor must undertake to supply all spares for optimal upkeep of the equipment for TWO **YEARS** from the date of installation at the site. If accessories / other attachment of the system are procured from the third party, then the vendor must produce cost of accessory / other attachment and the CMC from the third party separately along with the main offer and the third party will have to sign the CMC with the consignee if required.

In no case equipment should remain in non-working condition for more than 7 working days.

The manufacturers or their agents are required to submit a certificate that they have satisfactory service arrangements and fully trained staff available to support the uptime guarantee.

#### **ANNUAL MAINTENANCE CONTRACT**

The supplier will provide CMC for 3 (three) years for instruments after the completion of 2 years warranty period.

#### **INSTALLATION AND DEMONSTRATION**

The installation and demonstration of the equipment shall be done by the Supplier(s) at free of cost at the installation site.

#### **TRAINING**

Supplier(s) shall impart adequate training to 2 doctors and 2 technicians at the site / his / their factory / workshop inside / outside India as the case may be at the Supplier(s) cost.

#### **INCIDENTAL SERVICES**

The Supplier(s) shall abide by the terms and conditions under incidental services & the installation of Instrument / Equipment at the destination point (Door Delivery) of consignee and demonstrate the machine in working condition to the receiving authority.

Furnishing of tools required for assembly and / or maintenance of the supplied Instruments / Equipments.

Furnishing of detailed operations and maintenance manual literatures for each appropriate unit of supplied Goods.

Performance or supervision or maintenance and / or repair of the supplied Goods, for a period of two (2) years i.e. the warranty period, provided that this service shall not relieve the Supplier of any warranty obligations under this contract.

( 12 - 2 - 20) X

The successful supplier shall replace any part or whole system as may be necessary in the event of damage during transit or found damaged on arrival or during installation of the system or if found not in conformity to the specifications at his / their own cost.

The tenderer should furnish an undertaking to the effect that he / they should take responsibility after sales service of the equipments / instruments to be supplied by him / them and to provide spare parts for up keeping the Equipments / Instruments for a minimum period of 10 years from the date of installation.

The price of the instruments / equipments is inclusive of warranty for a period of 2 (two) years commencing from the date of installation. The tenderers shall submit undertaking for CMC (Comprehensive Maintenance Cost) for a period of 3 (three) years from  $3^{rd}$  year onwards for instruments only duly signed by authorised signatories for the execution at appropriate time (Annexure – X & XI).

#### **SPARE PARTS**

The supplier will provide all the spare parts, repairing & maintenance by its trained personnel after the warranty period (2 years) during the CMC period only for instruments.

#### **COMPREHENSIVE WARRANTY**

This warranty shall remain valid for two years from the date of installation & commissioning of the machine / item & must be submitted at the time of installation to the consignee with a photocopy to the purchaser.

The warranty will cover all the parts of the machine or item and any replacement or repair required within the warranty period will be provided by the supplier free of cost at the destination point (Installation point). The supplier will take back the replaced parts / goods at the time of their replacement. No claim whatsoever shall be on the purchaser for the replaced parts / goods thereafter. No traveling allowances or transportation cost will be paid by the purchaser during warranty period.

The Supplier warrants that the Goods supplied under this contract are new, unused, of the most recent or current models and they incorporate all recent improvements in design and materials (even if the advanced facilities are not mentioned in our product specification). The Supplier further warrants that all Goods supplied under this contract shall have no defect arising from design, materials or workmanship (except when the design and / or material is required by the Purchaser's Specifications) or from any act or omission of the Supplier, that may develop under normal use of the supplied Goods in the conditions prevailing in the place of final destination.

The Purchaser / consignee shall promptly notify the Supplier in writing / Fax / Telephone of any claims arising under this warranty.

( 12 - 2 - 20) X

Upon receipt of such notice, the Supplier shall with all responsible speed will repair or replace the defective goods or parts thereof without cost to the purchaser to maintain its UP TIME offered in the beginning of purchase otherwise penal provisions shall apply if the supplier fails to keep up its UP TIME.

If the Supplier, having been notified, fails to remedy the defect(s) within 10 days, the Purchaser may proceed to take such remedial action as may be necessary, like forfeiture of EMD or recovery from security deposit the amount of loss (which will be decided by Dean & Principal, VSS Medical College, Burla incurred by the purchaser.

#### **GOVERNING LANGUAGE**

The contract shall be written in English language. English language version of the contract shall govern its interpretation. All correspondences and other documents pertaining to the contract which are exchanged by the parties shall be written in English.

#### **DELIVERY OF DOCUMENT**

Four (4) copies of the Supplier invoice / bills showing purchase order number, good's description, quantity, unit price, total amount with stock entry certificate by the consignee.

Photocopy of the Insurance Certificate if any (The Original Certificate is to be given to the Consignee).

Attested Photocopy of Manufacturer's / Supplier's warranty certificate. (The original warranty certificate is to be submitted to the consignee at installation point).

#### **INSURANCE**

For delivery of goods at site, the insurance shall be obtained by the Supplier(s) in an amount equal to 110% of the value of goods from "Warehouse" (final destination) on "All Risks" basis including natural calamities.

#### **PACKAGING**

The supplier shall provide such packaging of the goods as is required to prevent their damage or deterioration during transit to their final destination. The packaging shall be sufficient to withstand without limitation rough handling during transit and exposure to extreme temperature, salt and precipitation during transit and upon storage. All primary packaging containers which come in contact with the item should strictly protect the quality and integrity of the Instruments & Equipments. Packing case size and weights should be taken into consideration, in case of remoteness of final destination and the absence of heavy handling facilities at all points in transit.

The packaging marking shall show the description of quantity of contents, the name of the consignee and address, the gross weight of the packages, the name of the supplier with a distinctive number of mark sufficient for purposes of identification. Each package shall contain:

( 121-6-2017

- i. a packaging note quoting the name of the purchaser
- ii. the number and date of order
- iii. nomenclature of the goods
- iv. schedule of parts for each complete equipment giving part number with reference to assembly.
- v. Name & address of the consignee
- vi. Name & address of the supplier.

#### **TERMS OF CONTRACT**

The Dean & Principal, VSS Institute of Medical Sciences & Research, Burla will be at liberty to terminate the process either wholly or in part without assigning any reason. The tenderers will not entitled to any compensation whatsoever in such terminations.

#### **PENALTIES**

If the successful tenderer fails to execute the agreement and / or deposit the required security within the time specified or withdraws his tender after acceptance of his tender owing to any other reasons, he is unable to undertake the contract, his contract will be cancelled and the Earnest Money Deposit deposited by him along with his tender shall stand forfeited and he will also be liable for all damages sustained by the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla by reasons of such breach, such as failure to supply / delayed supply including the liability to pay any difference between the prices accepted by him and those ultimately paid for the procurement of the articles concerned. Such damages shall be assessed by the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla & the decision is final & binding in the matter.

If any articles or things supplied by the tenderer have been partially or wholly used or consumed after supply and are subsequently found to be in bad order, unsound, inferior in quality or description or are otherwise faulty or unfit for consumption / use & rusted then the contract price or prices of such articles on full will be recovered from the tenderer, if payment had already been made to him or the tenderer will not be entitled to any payment for that item & no further order will be given to him. For infringement of the stipulations of the contract or for other justifiable reasons, the contract may be terminated by the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla and the tenderer shall be liable for all losses sustained by the Dean & Principal, VSS Institute of Medical Sciences & Research, Burla in consequence of the termination which may be recovered from the Security Deposit made by the tenderer or other money due or become due to him.

( 12 - 2 - 20) X

Supply of sub-standard items or non - performance of tender terms & conditions will disqualify a firm to participate in the tender for the next five years.

#### **ARBITRATIONS**

In the event of any dispute out of the contract, such dispute should be subject to the Jurisdiction of the Civil Court, District Sambalpur or High Court, Odisha.

#### **CHANGE OF TERMS AND CONDITIONS**

Any amendment to the terms & conditions and clauses of the agreement if required must be done in writing duly signed by the two parties.
